About e-Diary

e-Diary – a revolution from conventional note taking, which gives you all that you've ever wanted and much more..your wish to say...**"My Diary... My World !"**

e-Diary - A device that captures handwritten notes on plain paper. Stores the

notes to memory and uploads them to a PC. The 'e-Diary' consists of a paper notebook, a Digital Pen and a small receiving unit including flash memory.

e-Diary captures, saves and converts handwritten notes and diagrams to typed text, provides a wide range of searching options, and enables drawing, editing and writing on your PC. e-Diary - A product which is fully compatible with MS Paint giving you a wide range of flexibilities.

e-Diary provides industry leading note taking solution across the world. e-Diary allows accurate handwriting conversion and real time drawing interaction with PCs and Notebooks.
